FUNCTIONALITY

To enhance workplace performance, the range of versatile storage system keeps work materials at hand. With STACK steel cabinets, the choices keep coming. Models include mobile pedestal, free standing book shelf cabinet, and lateral filing cabinet. Add it all up, and you have a very complete array of storage system to meet any functional and design requirement. STACK offers attractive combinations of choice and quality at a cost conscious price. Ideal for holding files and documents, STACK can be positioned under the work surface for handy individual storage, or placed outside workstations for archival or shared storage.

OPEN WORKPLACE

The open space office requires elements to separate the operative workspaces. These partitions must serve the needs of the different workstations and at the same time ensure them greater privacy. The modularity of the STACK series and its wide range both of sizes and accessories makes it ideal to respond effectively to these needs. STACK thus serves a dual purpose, as it combines the storage function with that of dividing the spaces and lending decor to the rooms.

EXECUTIVE OFFICE

Elegance, flexibility and customization are a must especially in management work spaces. The STACK line introduces the possibility of accessorizing the cabinets with wooden doors supplied by the client and chosen according to the taste and style of furniture already in the working space. The introduction of wood, alongside the traditional metal, offers a tough and aesthetically elegant furnishing that at the same time renders the environment warm and cosy.

TEAMWORK SPACE

Storage elements make an important contribution to the efficient use of office spaces, Their intelligent interior. Organisation creates an optimal working environment for team and project related work.

BREAKOUT AREA

Not only in the office areas but also in the common areas and in the areas dedicated to other functions: the STACK line offers efficient storage solutions for complementary office environments. Due to its robustness, modularity and maximum attention to detail, STACK furniture constitutes an effective response to the needs of all common areas within the workplace.

STEP TOWARD THE GREEN

It has been over a few years that **ROCKWORTH** has studied the consequences to the environment caused by our business. The study is conducted not only within our organization but also to our customers, suppliers and other environmental specialists.

We understand the difference of steps toward the sustainable organization and realize that we can only achieve this by working together with everyone in our company. Starting from product design, production through delivery and installation.

In the journey of sustainable business and environmental friendly, we continuously focus on the following development and improvement.

- Our products meet or exceed applicable legal requirements and other requirement related to the environment aspects of the organization.
- We are continuously improving performance focus on preventing pollution, reducing waste and reducing consumption of non-renewable energy.
- We are implementing technologies to efficiently use of energy resources.
- We design, process and produce our products for the environment.
- We promote environmental knowledge and awareness.
