BALANCE
AND
RATIONALITY

Balance and Rationality

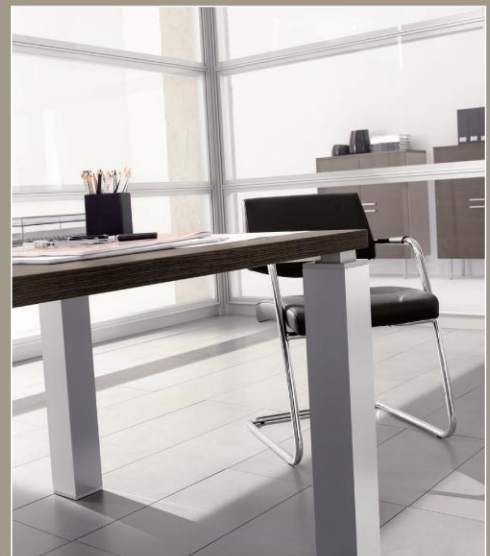

Starting with the name Tao, balance and rationality are the underlying principles of this new range of management office furniture. Tao represents exciting versatility in the search for balance, simplicity and sought-after rationality of design.

Discover
Your
True
Potential

TAO contains both classic and modern elements integrating into one single range a product grounded both in tradition and highly innovative features. The result blends together two design concepts which have in common up-to-date design and the made-to-measure solution that today's workplace demands-flexible, customised and extremely functional.

TAO allows working briefings and meetings thanks to the spacious wood or glass tables, while a specially - designed modular system makes it possible to create large surface areas.
